

I design how humans and AI agents share judgment in enterprise work, especially where decisions are hard and being wrong is expensive.

EXPERIENCE

2021 to now	Product Designer, Sirion.ai Enterprise contract lifecycle management, used by global legal teams. Directions shaped with designers, product managers, engineers and legal subject-matter experts. Month-four retention 5% to 23% · review 18% faster · error rate down 15% An AI review tool I redesigned. Product analytics, two eight-month windows, June 2025. - Argued the contract model had to describe how contracts relate, not where documents sit, since one amendment can govern several agreements. The relationship model was approved and prioritised for build. - Wrote an intent model for when an agent should explain, suggest, act, or stay out of the way. Adopted as design direction for the next-generation platform. - Built HTML prototypes at production scale to settle structural decisions. A 340-record layout failed at zero legible labels and was replaced. - Created and maintain a sixty-term glossary for agentic contract work.
2019 to 2021	UX Designer, Bharti Airtel Airtel Thanks, one of India's largest consumer apps. Call volume down 9% · daily engagement up 15% Redesigned help and support around predicted intent instead of a menu. One issue was driving over four million calls.

EARLIER

2019	UI/UX Designer, Think Matra
2018 to 2019	Senior Creative UI Designer, Great Place to Study
2017 to 2018	Co-founder and Creative Director, Zhero Denim
2013 to 2017	Graphic and Product Designer, Lee Cooper

PRACTICE

Design	Interaction design, information architecture, user research, design systems
AI product	Agentic workflows, human-in-the-loop review, provenance, uncertainty and trust
Tools	Figma, FigJam, HTML, CSS and JavaScript, Miro, Adobe CC

EDUCATION

2025 to 2026	Executive Development Program in Strategy and Leadership, XLRI Delhi-NCR
2020	Design Thinking: From Insights to Viability, Stanford Graduate School of Business, online
2013	Bachelor of Design, NIFT Chennai
2011	Product Design Trainee, IIT Guwahati

RECOGNITION

Lightning Talk, UX India 2023 · Best AI-Driven Design Concept, Sirion 2024
