EXPERIENCE

2021 to now

Senior UX Designer, Sirion.ai

Enterprise contract lifecycle management, used by global legal teams. Directions shaped with designers, product managers, engineers and legal subject-matter experts.

Month-four retention 5% to 23%, an 18-point gain · cohort grew from 860 to 2,380 users

Auto Extraction, the AI review module I owned end to end. Heap product analytics, two eight-month windows, captured June 2025.

- Sole designer of AI contract onboarding, shipped: an agent names the counterparties and builds the contract families; three human checkpoints confirm or correct it before it becomes the record.
- Argued the contract model had to describe how contracts relate, not where documents sit, since one amendment can govern several agreements. Approved, and shipped through onboarding.
- Wrote an intent model for when an agent should explain, suggest, act, or stay out of the way. Presented to leadership as direction for Phoenix.
- Prototype in HTML with AI tools at production scale. A 340-record layout failed at zero legible labels and was replaced. Built reusable HTML components in Git for handoff.
- Created a sixty-term glossary for agentic contract work. Mentor the design team.

2019 to 2021

UX Designer, Bharti Airtel

Airtel Thanks, one of India's largest consumer apps.

Call volume down 9% · daily engagement up 15%

- Redesigned help and support around predicted intent instead of a menu. One issue was driving over four million calls.

EARLIER

2019	UI/UX Designer, Think Matra
2018 to 2019	Senior Creative UI Designer, Great Place to Study
2017 to 2018	Co-founder and Creative Director, Zhero Denim
2013 to 2017	Graphic and Product Designer, Lee Cooper

PRACTICE

Design	Interaction design, information architecture, user research, design systems
AI product	Agentic workflows, human-in-the-loop review, provenance, uncertainty and trust
Tools	Figma, FigJam, HTML, CSS and JavaScript, Claude, Cursor, Miro, Adobe CC

EDUCATION

2025 to 2026	Executive Development Program in Strategy and Leadership, XLRI Delhi-NCR
2020	Design Thinking: From Insights to Viability, Stanford Graduate School of Business, online
2013	Bachelor of Design, NIFT Chennai
2011	Product Design Trainee, IIT Guwahati

RECOGNITION

Lightning Talk, UX India 2023 · Best AI-Driven Design Concept, Sirion 2024
