EXPERIENCE

2021 to now

Senior UX Designer, Sirion.ai

I design contract management software for legal teams at global companies, working with product managers, engineers, other designers and legal experts.

Month-four retention 5% to 23% · user base grew from 860 to 2,380

Auto Extraction, an AI review product I designed end to end. Measured in Heap across two eight-month periods, June 2025.

- **AI contract onboarding:** Sole designer of a shipped AI workflow that finds contract parties and groups related agreements. Users check and correct it at three points.
- **Contract structure:** Proposed organising contracts by how they relate to each other instead of by folder. Approved and shipped in onboarding.
- **AI interaction model:** Defined when AI should explain, suggest, act or stay quiet. Presented it to leadership for Phoenix.
- **Working prototypes:** Built HTML prototypes with AI tools to test interactions at real scale. Replaced a 340-record layout with unreadable labels. Made reusable HTML components for handoff.
- **Design leadership:** Wrote a 60-term AI and contract glossary. Mentor other designers.

2019 to 2021

UX Designer, Bharti Airtel

Airtel Thanks, one of India's largest consumer apps.

Call volume down 9% · daily engagement up 15%

- Redesigned help and support around predicted intent instead of a menu. One issue was driving over four million calls.

EARLIER

2019	UI/UX Designer, Think Matra
2018 to 2019	Senior Creative UI Designer, Great Place to Study
2017 to 2018	Co-founder and Creative Director, Zhero Denim
2013 to 2017	Graphic and Product Designer, Lee Cooper

PRACTICE

Design	Interaction design, information architecture, user research, design systems
AI product	Agentic workflows, human-in-the-loop review, provenance, uncertainty and trust
Tools	Figma, FigJam, Claude, Cursor, Miro, Adobe CC

EDUCATION

2025 to 2026	Executive Development Program in Strategy and Leadership, XLRI Delhi-NCR
2020	Design Thinking: From Insights to Viability, Stanford Graduate School of Business, online
2013	Bachelor of Design, NIFT Chennai
2011	Product Design Trainee, IIT Guwahati

RECOGNITION

Lightning Talk, UX India 2023 · Best AI-Driven Design Concept, Sirion 2024
